## SUMMARY OF JWCSM's

### "FASTEST-TRACK" MASTER OF BUSINESS ADMINISTRATION ~ WITH THREE OPTIONAL CONCENTRATIONS ~

*(A Program to Earn Your MBA at Your Own Pace)*

This program is the *fastest* and most *cost-effective* way we know of anywhere for you to earn your MBA degree. The program takes from 12 to 18 months to complete, depending on how dedicated you are, and requires you to take only 10 full courses, plus a brief Orientation Seminar and a Final Project paper. You also have your choice of three Concentrations: Management, Human Resources, or Non-Profit Leadership.

For your 24/7 convenience and flexibility, all course work is done online. This means that anywhere you can use a laptop, Blackberry, or other device to access the Internet, you can work on your degree — at your pace, on your schedule.

But the best news of all is that the degree is taught with virtual-reality techniques, including the new cutting edge *avatar* simulation technology used by the military, video games, and airline pilots. You'll enroll in an "Executive Internship" with a virtual company named "Central Products, Inc.," and you'll take all your courses working with them. For example, for your marketing course, you'll enter the virtual Marketing Department of Central Products, and learn marketing principle and techniques while working with the managers in that department (along with normal reading assignments, etc.). Research indicates that students learn 200% faster, and remember 40% more, using avatar virtual simulation.

Each MBA course is composed of several "modules," and each module can be completed in about a week. Thus, most of the courses can be completed in 5 to 9 weeks depending on the dedication of the student. The courses are taken in sequence, one-at-a-time, so you don't have to "double-up" the way you would in on-campus courses. The courses run throughout the year, without summer or vacation breaks, and this allows you to graduate in approximately half the time, and with approximately half the expense, of ordinary MBA degrees.
